

Introducing an even better way to WiFi.

eero

eero is the hub of your connection. It has multiple Ethernet ports, tri-band mesh, and is designed for wired and wireless connectivity to fit anywhere in your home.

eero Beacon

Half the size of eero, these little powerhouses plug directly into any outlet to expand network coverage to every spot in your home – even hallways, bathrooms, and basements. It also includes an intelligent LED nightlight with an ambient light sensor.

SET UP

- 1 Download the eero app for iOS or Android.
- 2 Walk through setup in the eero app.
- 3 Try to stay humble, smart home hero.

Starting at

\$9.95
/mo

Restrictions apply. Activation and installation not included. \$9.95 per month includes 1 base eero and 1 beacon eero. Each additional eero beacon is \$5.00 per month. Quick Reference Guide

Quick Reference Guide

Upgrade your WiFi in a snap

The app guides you through setup and placement in less than 10 minutes. eeros automatically connect to create a wireless mesh network.

World-class security

Unlike traditional routers, eero provides automatic security updates and adheres to the strictest security standards. If a vulnerability is discovered, we can quickly update every system.

Covers any home

Customize or expand your WiFi by adding as many eeros and eero Beacons as you need. You can cover a home of any size or shape. The eero can use Ethernet or wireless connections in any combination.

WiFi with serious smarts

The only system with TrueMesh technology, eero intelligently routes traffic between eeros and Beacons to avoid congestion, buffering, and dropoffs. Consider this the end of WiFi rants entirely.

Easy-to-use app

With the eero app, you can check your network status, connected devices, and run speed tests from the app dashboard. You can also set up a guest network and create profiles to set schedules and pause the internet on kids' devices.

Connect it all

eero works directly with Apple, Sonos, Ecobee, Amazon, and dozens of other leading connected home device brands to ensure that consumers' favorite gadgets just work—no matter the “ecosystem” they're from.

Stays news, gets better

eero software automatically updates every month, keeping your system at the cutting edge. Since last year, we've updated eero networks over 30 times, bringing improved performance, new features, and security patches.

Designed for the home

eero and eero Beacon are both designed to be compact and elegant, so they can be placed out in the open for optimal performance.

Entertainment-grade WiFi

Whether you're into music, video, or gaming — or all of the above — eero's got you covered. With its incredible low latency, fast speeds, and whole-home coverage, you can stream 4K video wherever you want, however you want.

TECHNICAL SPECIFICATIONS

Required for setup

See eero.com/requirements

Processor, memory, and storage (Both devices)
700 MHz quad-core processor, 512MB RAM, 4GB flash storage.

Wireless connectivity

eero:
Tri-band WiFi radios, simultaneous 2.4GHz, 5.2GHz and 5.8GHz wireless
eero Beacon:
Dual-band WiFi radios, simultaneous 2.4GHz and 5GHz wireless
Both:
2x2 MU-MIMO, Beamforming, IEEE 802.11a/b/g/n/ac, Thread 1.1 Border Router, Bluetooth® 4.2

Wired connectivity

eero: Dual auto-sensing Gigabit ports for WAN and/or LAN connectivity

eero Beacon: None

Smart Home Connectivity

Thread 1.1 Border Router, Bluetooth® 4.2

Nightlight

10 Lumen LED nightlight, with automated dimming

Networking services

DHCP, IPv6, NAT, VPN Passthrough, UPnP, Static IP, and Port Forwarding

Security and parental controls

WPA2 encryption, Family Profiles

Dimensions

eero:
4.76in (121mm) x 4.76in (121mm) x 1.24in (32mm)
eero Beacon:
4.76in (121mm) x 2.91in (74mm) x 1.18in (30mm)

Electrical requirements

100-240 V 0.6 A 50/60 Hz

Warranty and support

1-year limited warranty. See eero.com/legal
