

Business Challenge

Our always-connected society demands wireless broadband connectivity whether it is for business purposes, Internet access for guests, or for personal use in the workplace. Organizations are realizing that offering robust, easily accessible Internet is now a necessity and no longer optional for businesses.

Having reliable Wi-Fi can be the difference between a good customer experience and a frustrating one and not having it is enough to affect a business's bottom line. The challenge for all businesses, large and small, is the same: dependable, scalable, and easily configurable Wi-Fi that works seamlessly across the premises.

Dependable, scalable, easily configurable Wi-Fi with little to no capital investment required.

The Solution

The RCN Managed Wi-Fi solution extends your broadband connection with professionally installed plug and play hotspots for single and multi-site networks.

Designed to provide flexibility, the wireless access points deliver high performance and a superb user experience for medium density environments. It enables an all-wireless digital work environment in a cost effective manner.

With a maximum concurrent data rate of 1,300 Mbps in the 5GHz band and 300 Mbps in the 2.4GHz band, the RCN Business Wi-Fi solution brings an always-on wireless network experience with the performance demanded by today's users.

Key Benefits & Results

- 
MINIMAL CAPITAL INVESTMENT
 Low monthly operating expense with little to no capital investment required.
- 
FEATURE FLEXIBILITY
 You decide the level of service.
- 
CONTROL AND MANAGEMENT
 Manage and customize the user experience through a web portal and even modify the splash page.
- 
EASY TO SCALE
 Zone-by-zone growth. You can add zones one at a time as needed with virtually unlimited growth capacity.
-

 With a managed service you have protection against product obsolescence.

For the second consecutive year, customers chose RCN Business for the "Readers' Choice Awards for Best Internet Provider"

- Ranked #1 for Best ISP
- Highest score in overall value
- Highest likelihood to be recommended to colleagues
- High scores in overall quality and reliability
- High scores in tech support

Critical Differentiators

Wholly owned, fiber-rich network delivers superior uptime

Calls travel unencumbered along RCN's secure network over a continuous connection that means less packet loss and higher reliability. RCN Business operates a sophisticated network with network backbone featuring a smaller node size and robust fiber capacity.

24/7/365 local support

You can rest assured the person on the other end of the support call understands your business, local market, and urgency to solve your concern. RCN Business is dedicated to minimizing any impact to your business.

Custom, robust solutions

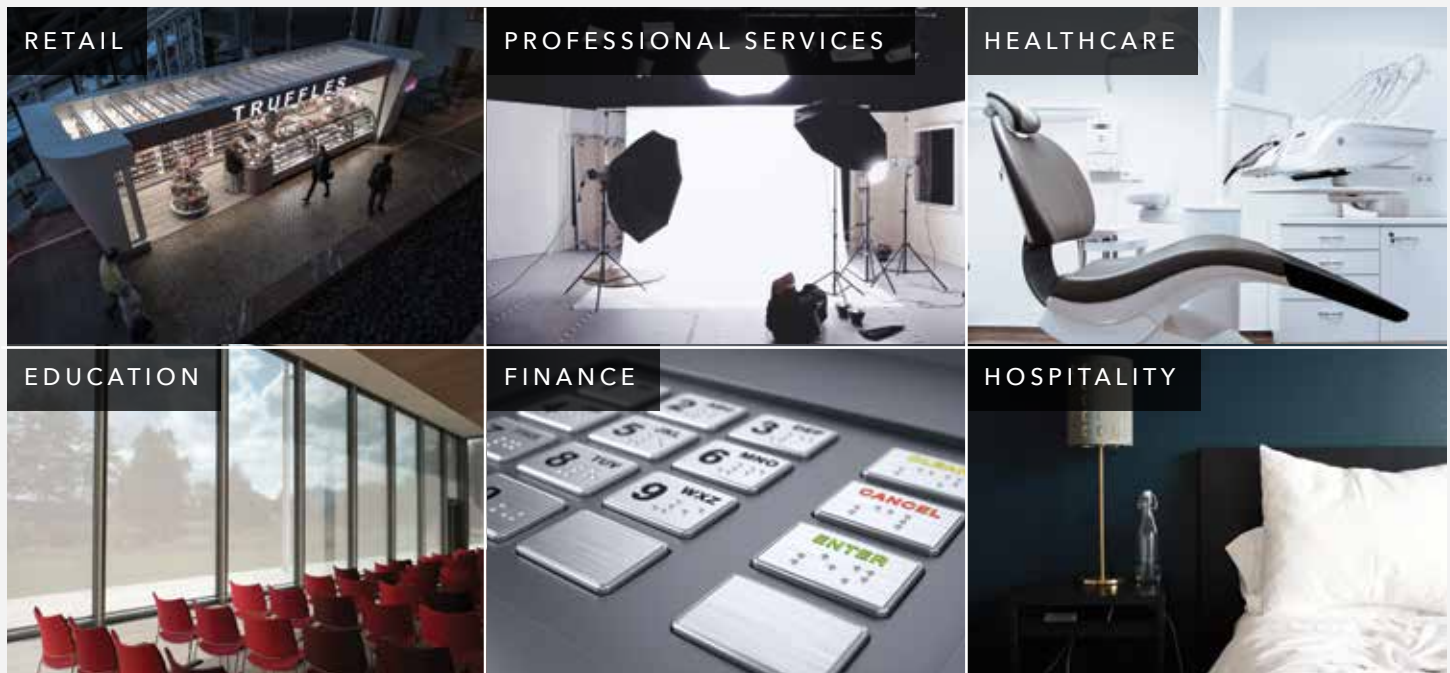

RCN Business takes a consultative approach by first understanding your distinctive needs and delivers a unique solution designed especially for you.

Speed to market

Unlike larger competitors, RCN Business focuses on rapid installations and upgrades and, as the sole owner of a fiber-rich network, does not rely on third parties to meet deadlines.

See how we can support your company today.
