### WHAT YOU NEED TO DO

1. **Change your PIN**
   - First, to secure your account, you must set up a new PIN. A prompt asks you to enter a new PIN, and explains the length of PIN allowed:
     - Enter a new PIN, press when finished.
     - Confirm the new PIN by re-entering it and pressing when finished.
   - NOTE: The PIN you choose must be between 6 and 20 digits long. Your PIN will ensure that only you will have access to your account.

2. **Record your name**
   - The recording should be less than ten seconds long. If it is too long, you will be asked to re-record a shorter version.
   - Record your name and press when finished.
   - An announcement plays your recording back to you.
   - To change it, press .
   - If this name is approved, press .

3. **Set up a greeting**
   - This is the greeting your callers will hear when you are not available to answer the phone. Once you have successfully recorded your name, you are prompted to select a greeting.
   - You can select from 4 different types of greetings:
     - Record your own personal greeting
     - Select a system-generated greeting that includes your RECORDED NAME
     - Select a system-generated greeting that includes your PHONE NUMBER
     - Select a system-generated greeting that NEITHER announces your name nor your phone number

   - This is the last step in setting up your mailbox; once you have finished, you are transferred to the Main Menu.

If you do not know your PIN number or would like to have your PIN reset, please contact RCN at 1.800.746.4726. The PIN must be a 4-digit number and must start with a number between 1 and 9.

If calls are forwarded to a Long Distance or Regional Toll number, you will be billed accordingly depending on your RCN long distance plan; if the Long Distance or Regional service provider is not RCN, any applicable charges will be billed by that carrier.
