STEP 5
Insert batteries into the RCN remote control.

STEP 6
Press the CBL button on the remote. The power light on the converter box will illuminate.

Please Note: In order for your installation to be successful, you must install ALL converter boxes that are not yet connected. Follow the previous steps for the other converter boxes included in your order before continuing to the next step.

You are now ready to activate your RCN converter box.

STEP 7
Locate your RCN packing slip. Follow the instructions to ensure proper account setup and optimum service.

STEP 8
To utilize all the features of your remote control, please reference the included instruction sheet.

Congratulations! Enjoy the experience of HDTV.

If you have any questions with your installation, please go to www.rcn.com/help or call 1-866-TECH-RCN (832-4726).
TO INSTALL

Welcome to RCN and the brilliance of HDTV (High Definition). Enjoy every whisper & every squint like you were there in crystal-clear stunning quality.

STEP 1
Connecting your converter box
(A. Wall Outlet or B. Open Cable Wire)

A. Wall Outlet
Connect one end of the coaxial cable to the wall outlet and the other end to the “Cable In” (or “RF IN”) connection on the back of the RCN converter box.

B. Open Cable Wire
(This wire could be coming out of the floorboard, window, etc)
Connect the open cable to the “Cable In” (or “RF IN”) connection on the back of the RCN converter box.

STEP 2
Connecting your Converter Box to TV (HDMI or Component cabling)

HDMI
Connect one end of the HDMI cable into the HDMI connection on the back of the converter box. Connect the other end of the HDMI cable into the HDMI connection on the back of your TV.

OR

High Definition Component Cable

Audio: Connect the black tip with red band into the audio output connection marked “R” and connect the black tip with white band into the audio output connection marked “L” on the back of the converter box.

STEP 3
Connect the power supply cord into the back of the converter box, then plug the other end into an electrical outlet. Ensure a wall light switch does not control the outlet. If it does, set the switch to the “ON” position.

STEP 4
Turn on the television with the TV remote. Press the “Input” or “Source” button. Depending on which cable you installed in Step 2, select the HDMI or Component video source on your TV.

Video: Connect the remaining cables into the corresponding RGB (Red, Green, Blue) video output connections on the back of the converter box.

Audio: Connect the black tip with red band into the audio input connection marked “R” and connect the black tip with white band into the audio input connection marked “L” on the back of your TV.

Video: Connect the remaining cables on that end into the corresponding RGB (Red, Green, Blue) video input connections on the back of your TV.
