WHAT YOU NEED TO DO

First Time Voice Mail Setup

- Setting up Voice Mail for the first time must be done from your RCN line.
- Press * 9 8 and follow the entrance tutorial.
- The tutorial states: "Welcome to subscriber services. First, I would like to walk you through some things we need to do to set up your account."

NOTE: You may skip the first-time setup once by pressing the * key twice, but after skipping it once, you must complete all three steps the next time you call in. You can also end the setup process at any point by ending the call. If you do so, you are asked to complete the remaining setup steps the next time you enter your mailbox.

- Confirm the new PIN by re-entering it and pressing # when finished.

NOTE: The PIN you choose must be between 4 and 20 digits long. Your PIN will ensure that only you will have access to your account.

- An announcement plays your recording back to you.
- To change it, press 1 .
- If this name is approved, press # .

Record your own personal greeting	PRESS 1 # when finished
Select a system-generated greeting that includes your RECORDED NAME	PRESS 2
Select a system-generated greeting that includes your PHONE NUMBER	PRESS 3
